7 February 2013

Gavin Holley (CPT) and March Read (RCP) from the CPG met with the Cathedral Chapter members in a workshop at 3:30pm to update them on the status of the Cathedral Project, and to get Chapters review of the key principles in the draft decision matrix. Chapter members requested that the key principles be divided into “Christian Values” and “Operational Matters” and that the following key principles be added:

- Enabling Cathedral Worship
- Sustaining and Growing Community

An update and overview of the Cathedral project and timeline was also provided to Standing Committee and CPT in a workshop later that day.

20 February 2013

Marcus Read (RCP) and Bill Gregory (W&M) met with the Cathedral Chapter members in a workshop at 2:30pm to update on the concept design options development and update on project progress. The Chapter members were also asked to review and score the principles that required input from Chapter including Mission Potential, Enabling Cathedral Worship and Sustaining and Growing Community, on a relative non-linear scale of 0-5 (0=worst and 5=best). The Chapter members broke into small groups to discuss and debate the scoring and each member provided a completed sheet with their scores. These scores were averaged and the results circulated to the Cathedral Chapter representatives the next day, for ratification by Chapter.

At 5:00pm a similar update was provided to Standing Committee and CPT in a workshop format, to review the draft scores. These were discussed and generally accepted by both groups. It was confirmed that the scores from Cathedral Chapter would be input and used in the decision process. The results are provided below:
